### Suite Home by Arch. Bovo-Manente for Hangar Prefab

images: Hangar Prefab

Suite Home is a mobile house, made for [Hangar Prefab](#). The large stained steel windows give access to natural light and help the connection between inner and outer space. The construction is entirely made of wood and aluminum. The interior, dominated by the large-screen LCD TV and the classy counter in black, includes a kitchen, a living space and a bath. Suite Home is 330 cm high, 850-cm. long. The inside width is 400 cm. •
